

FENDER/ USAGE	TRAILERED BOATS	PERMANENT PROTECTED MOORINGS	PERMANENT UNPROTECTED MOORINGS	PILINGS	RAFTING	LOCKS/ CONCRETE
G SERIES						
Light to medium duty. Ideal for trailerable boats and boats under 35'. Not recommended for unprotected moorings.						
HTM SERIES						
Medium to heavy duty. Versatile center rope tube - maximum strength when hung horizontally. Best on boats up to 40 feet.						
F SERIES						
Heavy duty. Sizes for boats up to 120'. Best for unprotected moorings with large waves/tidal fluctuations.						
A SERIES						
Heavy duty. Most stand off for the money. Best rafting fender available. Can serve as mooring/anchor buoy.						
LD SERIES						
Heavy duty. Same applications as A Series buoy. However, shorter length vs. diameter can replace larger F's.
